DUO Questionnaires are an integral facet of the treatment process and we require the most detailed and accurate information possible as you fill out the Client Forms and the Follow-up Questionnaires. Your Duo session actually begins as soon as we receive and process the information you share with us. The more detailed and complete the forms are the more we can focus on the session, remedies and the healing process in the scheduled session time frame. The more prepared we all are, the more effective and ease of flow the whole process can be!

All of the client information supplied is treated as confidential according to HIPAA regulations and the initial DUO intake forms include permissions for hands on work, and open collaborative communication between Kelley Toms and Glenys Eldred.
